

20W/ 30W Single head Seires

- 1.Power: 20W /30W Optional
- 2.Input voltage:DC12V/DC24V/DC48V/AC220V AC110V Available
3. Red/ Green/Blue/ White color optional
- 4.IP65 Waterproof
- 5.Photocell function
- 6.Beam angle:360degree
- 7.Light intensity:2000cd
- 8.flash model: 20-60times/minute

10W Solar LED Aviation Obstruction Light

- 1.Power: 10W
- 2.Input voltage:DC12V
3. Red/ Green/Blue/ White color optional
- 4.IP65 Waterproof
- 5.Photocell function
- 6.Autonomy(without sunlight):at least 7 days
- 7.Light intensity:2000cd
- 8.flash model: 20-60times/minute

Feature

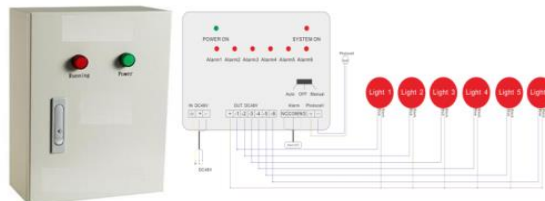

1. Aluminum housing,good heat performance,IP65 Waterproof
2. Photocell fuction, can match with control box for alarm system
3. Red/Green/Yellow/White color optional
4. AC110/220V/ DC12V/DC24V/DC48V Input voltage available
5. Lifespan up to 50000H

Double Head Series

- 1.Power: 20W /30W Optional (each head 10W or 15W)
- 2.Input voltage:DC12V/DC24V/DC48V/AC220V AC110V Available
3. Red/ Green/Blue/ White color optional
- 4.IP65 Waterproof
- 5.Photocell function
- 6.Beam angle:360degree
- 7.Light intensity:2000cd
- 8.flash model: 20-60times/minute

Control Box for Alarm System

- 1.This controller can let 10pcs Aviation Obstruction Lights work automatically by
2. controller can let 10pcs Aviation Obstruction Light flash sequence synchronization (Flash at
- 3.This controller has fault alarm function and remote monitoring function. When one of 10pcs Aviation Obstruction Lights has fault, controller will display alarm state by relevant LED indicator light on control unit and output alarm signal to
